# How to Install

How to get this theme installed in your new or existing Wordpress site, using DIVI's existing portability feature.

► **Estimated time of installation** - Less than 5 minutes

## INSTALL

## REQUIREMENTS

# Pre-installation checklist

Before installing the theme / template, you need the following items to be installed.

### WORDPRESS

The most popular CMS on the net today.

### WEB HOSTING

Unless you're deploying on a localhost in your computer, you need a hosting package to get started.

### DIVI (3.0.105 AND ABOVE)

A great and popular theme by Elegant Themes.

*Don't have DIVI?*

## INSTALL

# Import layout to your page

Utilize Divi's portable layout feature and import both layout and images into a new or existing page or post.

1

### LOGIN AS ADMIN

Load up your site and log in as admin to start.

2

### IMPORT LAYOUT

Goto Divi > Divi Library

*Locate your theme's JSON file for the next steps.*

3

### IMPORT & EXPORT

Click on the "Import & Export" button at the top of the page.

4

### SELECT IMPORT

Click "Choose File" and select the .JSON file.

*Click "Import Divi Builder Layouts"*

5

Portability

6

Export Import

Select a previously-exported Divi Builder Layouts file to begin importing items. Large collections of image-heavy exports may take several minutes to upload.

Select File To Import

No File Selected

CHOOSE FILE

Import Divi Builder Layouts

Import estimated time remaining: 1min

Cancel Import

7

### USE THE LAYOUT

From your post or page, click on "Load From Library".

*Select "Add From Library" and click "Load" from the layout you've just imported.*

8

### ALL DONE

Have fun!

Insert your own content, modify images and re-design everything to your heart's content.

THANKS AND KEEP IN TOUCH!
